As a 'workaround' you have to click to spirit it away.

Logs and settings are not part of my flow, therefore there are no screens behind them.

This is a task.

Please click each task in the sequence from top to bottom, otherwise the interactivity will not work properly!

Welcome

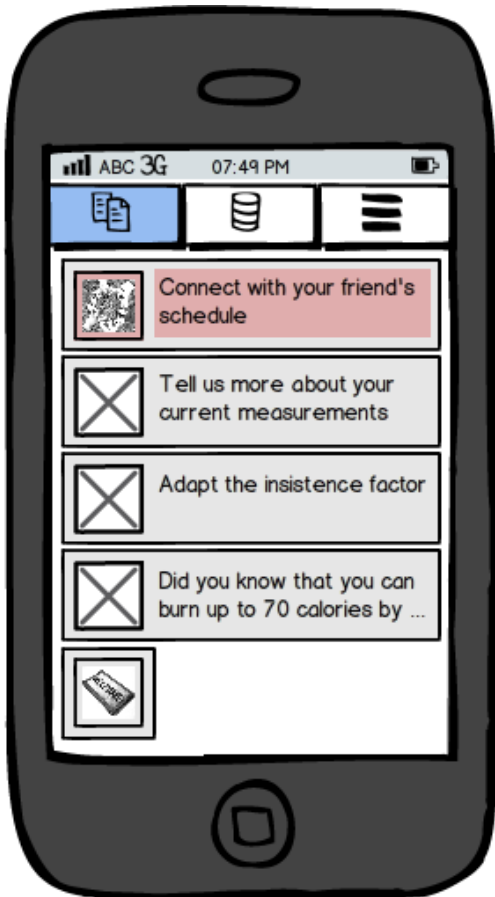

ACTivator is like a personal trainer: it will help you reaching your fitness goals.

You will get tasks to accomplish on a daily basis. Depending on your schedule your training plan will be adapted. You can also watch past activities in the logs and can change the settings.

To find out more about it, take a [guided video](#) tour!
